Roadzen Ranks Among Top 25 Fastest-Growing AI Companies on the 2026 Deloitte Technology Fast 500™

November 18, 2026

Attributes 343% Revenue Growth to Global Expansion and Rising AI Adoption Among Insurers, Automakers, and Fleets

NEW YORK, Nov. 18, 2026 (GLOBE NEWSWIRE) -- Roadzen Inc. (Nasdaq: RDZN) today announced that it ranked among the 25 fastest-growing AI companies, and 205th overall, on the 2026 Deloitte Technology Fast 500™. The Fast 500 ranks the 500 fastest-growing technology companies in North America and is now in its 32nd year. There were 105 public companies and 395 private companies on the list this year, across categories such as Energy, Semiconductors, AI, and Fintech, among others. Roadzen grew revenue 343% from fiscal 2022 to fiscal 2025.

Founder and Chief Executive Officer Rohan Malhotra credits the growth to rising AI adoption among Roadzen's clients and the company's business expansion across North America, India, and Europe.

"The next great AI companies are going to be built around transforming large, legacy verticals — none more so than auto insurance — and we intend to become the leading company in this space globally," said Malhotra. "To rank not just among the top AI companies, but among the fastest-growing public companies, is a testament to our work solving real problems across underwriting, distribution, road safety, and claims for our clients, and to the incredible work of our team. My thanks go to them, and to Deloitte for the honor."

"The 2026 rankings demonstrate that established momentum and breakthrough growth can drive sustained market leadership," said Justin Yahr, Audit & Assurance partner and National Emerging Growth Company leader, Deloitte & Touche LLP. "Nearly 70% of this year's award winners returned as repeat honorees, reflecting the power of disciplined and sustained execution. More than 30% made the list for the first time, illustrating how quickly new players are shaping their respective sectors. Furthermore, private companies represented almost 80% of the list, a clear indication that the agility and strategic focus of private enterprises remain essential to scaling in competitive markets."

About the 2026 Deloitte Technology Fast 500
Now in its 32nd year, the Deloitte Technology Fast 500 provides a ranking of the fastest-growing tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2022 to 2025.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or proprietary technology that significantly contributes to the company's operating revenues. Companies must have base-year (fiscal year 2022) operating revenues of at least US$50,000, and current-year (fiscal year 2025) operating revenues of at least US$5 million, with a growth rate of 50% or greater. Additionally, companies must be in business for a minimum of four years and be headquartered within North America (United States and Canada).

About Roadzen
Roadzen Inc. (Nasdaq: RDZN) is a global leader in AI at the convergence of insurance and mobility. Roadzen builds technology that helps insurers, automakers, and fleets better predict and prevent risk, automate claims, and deliver seamless, embedded insurance experiences. Thousands of clients — from the world's leading insurers, carmakers, and fleets to dealerships and agents — use Roadzen's technology to build new products, sell insurance, process claims, and improve road safety. Roadzen's pioneering work in telematics, generative AI, and computer vision has earned recognition from Forbes, Fortune, and Financial Express as one of the world's top AI innovators. Headquartered in Burlingame, California, Roadzen employs more than 450 people across offices in the U.S., U.K., and India. Learn more at www.roadzen.ai.
